ALBERTA

Mr. and Mrs. J. J. Duffield left on Tuesday for Vancouver where they intend to reside in future.

Mr. and Mrs. A. G. Spooner motored to Black Diamond and Calgary on Thursday last.

LEAVES FOR THE COAST

Mr. and Mrs. J. J. Duffield, who have been residents of Vulcan for nearly two years, left on Tuesday for Vancouver where they intend to make their home in the future. During their residence they have made many friends who are sorry to see them leave as they have both given their services to the community in many ways, especially in church circles and were both members of the choir. Mrs. Duffield was also a prominent member of the Ladies' Aid and held the office of secretary for some time. She was also a member of the Women's Institute in which she took keen interest and always worked in the interests of the organization. Mr. Duffield is widely known in this district and also the High River district where he was connected with the High River Times from 1910 to 1915, when he came to Vulcan and started the present plant of The Advocate, which was then under the management of R. W. Glover. Up to that time The Advocate had been printed at the High River office and sent over here for distribution. Besides the paper, the volume of job work sent from Vulcan increased to such an extent that it was thought advisable to put in a plant in the town and this was done in August, 1915, Mr. Duffield taking charge of the mechanical end and issuing the first paper printed here. After a residence of six months he answered the call to arms and joined up in January, 1916 and proceeded to Ottawa for training. He left there for England early in March and the month of May found him in France, where he stayed for two years. In 1918 he was discharged from the army medically unfit for further service and shortly after re-joined the staff of the High River Times. In November, 1919, he returned to Vulcan and the following March assumed the management of The Advocate which position he has held ever since. As editor of this paper he has at all times put out a clean sheet and has been a constant booster for the district. His exerts along this line were constantly rewarded by the congratulations of subscribers as well as the business men generally and it is to be hoped that his successor will follow in his footsteps and keep up the reputation the Vulcan Advocate has got of being "The best country weekly in the province." The citizens generally join their many friends in wishing this estimable couple success in their new field of labor and hope that some day they will come and visit us when they will be sure of a hearty welcome.

SUCCESSFUL PICNIC

The Alston Picnic held on Thursday afternoon last was very largely attended and was the biggest success yet. Carload after carload of people arrived shortly before the time for the program and when everything was in full swing about 150 cars were counted. Sports of every description, baseball, etc., provided a full afternoon's entertainment which was enlivened by the Vulcan Citizens' Band, who played in their usual good style. Champion baseball team played Nanton and won a notable victory by a score of 14-5. The Vulcan team defeated Alston 9-4 in a well contested game which was full of pep throughout. The program of general sports provided much amusement for the spectators and everybody was happy. The Alston farmers have every reason to congratulate themselves on the splendid results achieved.

VULCAN FAIR

Owing to the continued drought, and the impossibility of procuring produce and stock, etc., for show purposes, the executive management of the Vulcan Agricultural Society have decided that it would be impracticable to hold a fair here this year.

It is their intention, however, to hold a sports day, which will include horse racing, baseball, bucking, athletics and other sports, at a date that will be announced later.

Owing to the conditions that prevail here at present, and the lack of support given by the public of late years to the Vulcan fair, it would be impossible to put on a fair this year which would be a financial success to the Society. The President and Board of Directors sincerely trust that no one will be disappointed at their action, as they believe they have acted in the best interests of everyone.

ELECTED

O. L. McPHERSON

UNITED FARMERS SWEEP COUNTRY

The United Farmers of Alberta defeated in a most decisive manner, the Liberal government of this province on July 18, and completely eliminated the once historic Conservative party, not one candidate being elected throughout the entire province. At this writing the farmers have about forty representatives elected, and one or two may be added to the list when recounts are completed in the 61 ridings. In the landslide, three members of the Stewart cabinet suffered defeat, the Hon. Duncan Marshall, minister of Agriculture, Hon. George P. Smith, minister of education, and Hon. Archie McLean, minister of public works. The Hon. Charles Mitchell made a great fight in Bow Valley, and Hon. J. R. Boyle won easily in Edmonton, but lost in Sturgeon. Mrs. McKinney was defeated in Clareholm by Mr. Milne, an Independent Farmer. Labor will have 4 representatives, Liberals about 15, Independents 4. In Bow Valley McPherson won against McNaughton, in Nanton D. H. Galbraith won against J. Glendinning, and in High River Sam Brown won against Jack Drumheller. Everywhere the U.F.A. candidates where they were organized came out victorious and upon them will rest the great responsibility of legislating for this province during the years of great stress. That they will assume their responsibilities in a befitting manner goes without saying for they have within their organization men of great intelligence and foresight, who have in anticipation of such a contingency been studying political problems of this province and it is our guess the farmers' parliament of Alberta will perform to the credit of the province and the dominion of Canada.

TOWN COUNCIL MEETING

The first regular meeting of the Vulcan town council was held on Monday evening, July 11th. Present, Mayor Butchart, Councillors Charters, Stack, Dewie, May and Walker. The business disposed of was the forming of the several committees which are as follows:

E. J. Charters was appointed deputy Mayor and A. J. Flood was appointed Secretary-Treasurer.

Wm. Watt was appointed town man which includes Chief of Police, Health Inspector, etc.

Drs. Carson and Wark were appointed Health Officers.

Public Works—W. Mays and E. M. Clark.

Public Health—L. H. Stack and E. J. Charters.

Fire Protection—W. Mays and John Dewie.

Finance—Roy Walker, L. H. Stack and E. J. Charters.

Auditor—R. L. Elves.

Finance and Public Works committees will meet on Thursday, July 21. The regular meeting night of the council will be the first Thursday of each month, but a special meeting is called for Monday, July 25.

DEATH OF MRS. J. CORRIGAN

The deceased leaves, besides a large number of friends, her husband, one son, William Corrigan, and one daughter, Mrs. J. A. Johnston, to mourn her loss.

Burial took place on Thursday in the Vulcan cemetery which was attended by a large number of friends, besides the members of the Cloverleaf Rebekah lodge, who all came to pay their last respects to the departed. The first part of the service was held in the Union Church, the Rev. A. E. Hayes officiating.

The death of Mrs. J. Corrigan, who lived about nine miles southwest of town, occurred in the early hours of Tuesday morning last at the ripe old age of 69 years. The deceased lady was well known and loved by a large circle of friends which she had formed during her long residence in the Vulcan district, having come here from Forest River, North Dakota, in the year 1906. She was very popular and was always identified with any movement for the betterment of the community and her friends and neighbors will feel her loss very keenly. She was also a member of the Cloverleaf Rebekah lodge and had held several offices in the order during the past five years.

LOCAL ITEMS

A carload of oat chop just arrived at the Terwilliger Elevator.

A carload of oat chop just arrived at the Terwilliger Elevator.

Miss Davis visited Mrs. Harry McDonald at Carmanagay, over the week end.

Mr. and Mrs. G. B. McKoy were visitors for several days last week on business.

Mrs. Geo. Eamör, who was operated on recently for appendicitis, returned from Calgary on Tuesday.

Mr. and Mrs. Palmer, of Revelstoke, B.C., is visiting with Mrs. J. J. Leverington for a few days. Mrs. Palmer is a sister of Mrs. Leverington.

Mr. A. J. E. Gibson of the Bank of Commerce staff, left on Saturday for a two week's holiday, which he will spend with friends and relatives in B.C.

Mrs. R. E. Dodds and children, accompanied by Mrs. Dave Cunningham and two children, left on Saturday for Banff, where they will spend a couple of weeks.

Mr. E. H. Speton, of the Bank of Hamilton staff, left on Saturday evening last for Carman, Manitoba, where he will visit with friends and relatives for the next two weeks.

Mr. Z. Deal and family returned on Saturday from a very successful fishing trip in the foothills. They were away for several days and during that time fish was very plentiful.

Mr. William Fields, who lives 8 miles south-east of town is holding a unreserved Auction Sale at his farm on Friday, July 29th. Watch for posters giving full particulars.

Another barn dance will be held on the farm of A. C. Middleton on Wednesday evening, July 27th. The same orchestra will be in attendance and another good time is assured.

A large crowd of Vulcansites took advantage of the half holiday on Wednesday and journeyed to Alston to take in the U.F.A. picnic. They all report having had a splendid time.

We are pleased to report that Mr. J. Leverington, who underwent a serious operation last week at the Calgary General Hospital, is well on the way to recovery and expects to be home again soon.

Mrs. Wm. Watt, who has been visiting her sister, Mrs. Willgrass, of Magrath, for the past two weeks, returned on Saturday, she was accompanied by Mrs. Willgrass, who will spend a few weeks here.

The Rev. Mr. Hunt and wife, of Electric, Ont., who have been transferred from the Ontario Conference to the Alberta Conference, and who are at present visiting friends and relatives throughout the province, spent the week end in town the guests of the former's brother-in-law, Mr. N. B. Wilson. While here he was invited by the Rev. Mr. Hayes, of the Union church to take the morning service, which he did.

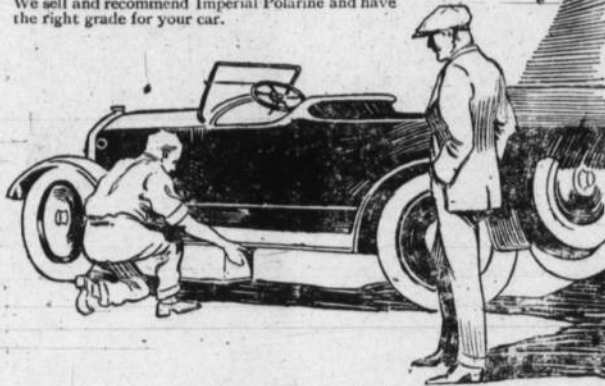

Crank-Case Service -

Drain and thoroughly clean the crank-case of your motor car every 500 miles, then refill with fresh Imperial Polarine.

Do this and you will reduce your operating expenses almost a half, and will easily double the life of your motor.

Bring your car to us for *Crank-Case Cleaning Service*. We guarantee promptness and our work will show itself immediately in better engine performance and lessened operating expense.

We sell and recommend Imperial Polarine and have the right grade for your car.

DEFAULTED-ON BOND ISSUE

The public statement of Mr. W. L. McKinnon, chairman of the Municipal Administration and Finance Committee of the Bond Dealers' Association, in respect to the wasting of public moneys by various Saskatchewan municipalities, in consequence of which these centres are now unable to meet their bond interest, is sufficient to give one a chill. At the same time it will unquestionably do a great deal of good in the long run.

The Hon. George Langley, Minister of Municipal Affairs for Saskatchewan, unwise enough to state that bond and investment dealers were carrying on a boycott against Saskatchewan securities. "There is no boycott," respond the Bond Dealers' Association, "but there is something far worse than a boycott." By which was meant that the investing public has lost confidence in the ability of Saskatchewan to operate its municipalities upon a safe and sane basis. It is a case of once burned twice shy.

In his most recent communication Mr. McKinnon replying to the Hon. George Langley, charges the latter gentleman in his capacity of Minister of Municipal Affairs, with gross negligence in allowing various municipalities within his jurisdiction to continue to operate their civic affairs in a manner which could but end in disaster. To give one instance: "The town of Humboldt defaulted on interests in its bonds in 1916," says Mr. McKinnon. The extravagance on its electric light service was appalling. A town of 1,000 people had a superintendent employed at \$185 per month, a chief engineer at \$140 per month, a second engineer at \$140 per month, a third engineer at \$120 per month, two firemen at 50 cents per hour, one bookkeeper meter reader at \$100 per month, and one coal and ash handler at 50 cents per hour. The electric plant showed a deficit of \$16,720 for the ten months ending October 31, 1919, or three years after the town defaulted on its bonds. What did the Government of Saskatchewan do to stop this extravagance? Why was it not stopped before the default took place in the year 1916? The town of Humboldt default is still not cleared up. Had the government attacked the problem even as soon as default occurred there would not have been arrears of interest piling up year after year, making it harder for the town to bear up under the debt burden.

"The truth is that Humboldt was in good financial shape a few years ago and now through no fault of any bond holder, the town is in bad shape financially."

Mr. McKinnon goes on to say that any well-handled town can stand a debt of \$100 per head, but when it comes to a place like Battleford, for instance with a debt of \$440 per head and a population of 1,100 there is certainly much to be desired. Then there is Melville, which if after all only a town, with its \$75,000 town hall; and Sutherland, still another, which has spent over \$100 per head of population for sewers alone.

The Canadian West, it is well to recollect, is largely dependent for its capital upon the Canadian East. And each defaulting municipality is going to make it just that much harder for those Western municipalities that require financial assistance in the present course of development. The Saskatchewan Government will gain nothing by dodging the issue. Facts are facts. The defaulting municipalities have been foolishly administered. The curb was not applied and the end has been disastrous.—Toronto Saturday Night.

OUR INSECTIVOROUS BIRDS

It may appear startling, but it is a fact, that if all the insect pest ravaging our crops could be suppressed, and all the plant and tree diseases eradicated, and the increased revenue eradicated by the country thereby could be turned into the Dominion Treasury, there would need to be no question of taxation. This idea is largely substantiated by the fact set forth by the Entomologist of the Dominion Department of Agriculture, that a conservative estimate of the annual loss in Canada to field, orchard and garden crops due to destructive insects is up-

wards of \$200,000,000. As our authority says: "To this huge devastation must be added the enormous annual destruction caused by forest insects, stored product, insects, etc." Upon this statement the Entomologist founds a well-sustained argument in favor of the protection of insectivorous birds, such as the prairie horned-lark, the robin, the somewhat despised crow, the red-breasted Nuthatch, the Western Tanager, the Myrtle Warbler, the Chickadee, grouse, gulls, and many other kinds. In the state of Iowa it has been estimated that tree sparrows annually devour something like 895 tons of weed seeds. Speaking of the robin, an investigation in Toronto found that a single bird kept in confinement ate 165 cutworms in one day. Another authority states that a brood of prairie horned-larks consumed 400 cutworms in one day. This same authority, namely, Mr. Norman Criddle, Dominion Entomologist in Manitoba, declares that six crows are capable of consuming three bushels of grasshoppers in one season. It is recorded that in certain places in Manitoba areas of growing grain were saved from destruction by the pestilent grasshopper owing to the presence of large flocks of gulls. In light of these facts it is gratifying to be informed by the Dominion Entomologist, Mr. Arthur Gibson, to wit, that the importance of protecting our useful birds is becoming more and more recognized, especially by farmers and fruit growers.

THE MISSING ELEMENT IN PROSPERITY

Students of nutrition have told us for a long time that we need balanced food; that is, that we need to consume all the elements of nutrition in the proper proportions. Recent investigations have shown that we require more elements than was formerly realized, and that if any one of them is lacking or if there is not enough of it, the body will suffer, no matter how much of the other elements it may be getting. The same principle applies to the feeding of plants. No matter how rich the soil in a certain field may be in all the elements of plant food but one, if there is not enough of that one the crop will be poor.

The principle of balance applies to every problem where several factors have to be combined. It applies very definitely and directly to the matter of industrial prosperity which is quite as complicated and depends upon quite as many things, all working in combination, as the problem how to feed plants and animals. No matter how many elements are present or how abundant they are, if one is lacking or is present in too small a quantity, the lack of that one will limit prosperity. If the other kinds are abundant, they are likely to be unemployed a large part of the time.

Careful study of the problem is likely to discover that many hitherto unrecognized elements are necessary to economic prosperity—as to bodily health. It is easy to think that all the essential elements of prosperity are present, and to wonder why prosperity does not come. From that it is a short step to conclude that the lack of prosperity is owing to the machinations of some person or group of persons, whereas deeper study would probably show that the need of which has hitherto been unrecognized or unappreciated.

There may, for example, be an abundance of manual labor, as there is in China, but a lack of knowledge of agricultural science. There may be an abundance of manual labor and technical knowledge, as in Japan, but a scarcity of land. There may be an abundance of manual labor, technical knowledge and land, as in Russia, but a lack of capital. There may be all four elements, as there are in this country today, but a lack of men who know how to organize them all and get them to working together smoothly.

In any of those and in a multitude of other instances, the mass of the people may be poor merely because some necessary element is missing or not present in sufficient abundance. The part of wisdom is to try to discover the missing element and then take such measures as are necessary to increase the amount of it. That plan will produce more durable results than laying the blame on some one else.—Youth's Companion.

GERMAN REPARATION TO CANADA

Canada's share of the reparations which Germany is to pay the British empire has been fixed by the prime ministers' conference at \$300,000,000. Under the decision of the supreme allied council the total German reparations bill is placed at 6,500,000,000 pounds or roughly speaking, thirty billion dollars. Of this sum the British empire is allotted 22 per cent, and under the decision reached on July 15, Canada is to receive 4.5 per cent. of

the British total. This works out at about \$300,000,000, or in other words it represents about one-eighth of the Canadian national debt.

Whether Germany will be able to pay the whole or any substantial part of this, and if so, when, is a different matter. Sir Robert Horne, the British chancellor of the exchequer, who took part in the negotiations which resulted in Canada receiving a share as announced, is understood to be hopeful that the Germans are, and will be, in a position to pay a considerable amount, but on the other hand, a

great many financial authorities hold the view that the collection of any substantial sum will be difficult, if not impossible. The division of the British share is made on the basis of casualties, pensions, expenditure and the loss of shipping by the various portions of the empire.

Secretary Hoover predicts that Europe will be able to feed itself this fall. This devoutly-wished consummation would be hastened if the inhabitants would break themselves of the habit of fighting between meals.

MILK MEANS HEALTH

Milk is rich in vitamins, says Dr. M. J. Rovenau, professor of preventive medicine at Harvard. Furthermore, he says that milk is rich in calcium in a readily available form. Children need five times as much calcium per pound of weight as adults. "In order to supply this important salt to growing bones and developing teeth, as well as to furnishing vitamins for the utilization of food, a child should drink a quart of milk a day. It will not then suffer from a deficiency disease."

"Our health, as well as power to

utilize food, depends upon the daily intake of these vitamins. Life itself is threatened by deprivation of them for any length of time. Hence the vitamin problem is of daily and universal interest to all persons."

These statements corroborate those of leading authorities in this country, and they explain in part some reasons for the wonderful results obtained from the use of more milk in the home.

Much has been done in recent years by the Dominion Experimental Farms to increase the production of eggs

laid by various breeds. In the eastern provinces many hens are now laying from 150 to 250 eggs annually, while at Indian Head, Sask., 105 pullets had an average of 183.7 eggs, the highest being 292. At Lethbridge production has been increased two or three times over that of nine or ten years ago. At the Vancouver Island farm one pullet laid over three hundred eggs.

DEATH OF PIONEER RESIDENT OF BLACKIE

The many friends of Mr. John Carson, a pioneer resident of this district and later a resident of Blackie since the location of the village, regret to learn of his death, which occurred at the home of his son, Roy Carson, Wednesday morning, July 13th, at the age of 68 years.

Mr. Carson has been ill for the past two years, and his death was not unexpected.

Deceased came to Blackie before the railroad was built and established a blacksmith business, which he conducted up to three years ago, at which time he was obliged to discontinue active work on account of failing health. Mr. Carson also served as Justice of the Peace for a number of years.

During his lifetime in Blackie, Mr. Carson was active in matters pertaining to the best interests of the village. He was always ready to aid in whatever was for the best interests of the community. He was an active member and regular attendant at the local church while his health permitted.

Mr. Carson was a lover of music and frequently took part in events in which music played a part.

Funeral arrangements have not yet been completed, but it is expected that burial will take place in the new Blackie cemetery, Friday afternoon. Funeral services will be held at the Roy Carson home in the forenoon and a short service held at the graveside.

WHERE TO SPEND HOLIDAYS

While in Victoria we had the pleasure of visiting Cadboro Beach which is four miles from the city of Victoria, and only a few minutes stroll from the car terminus. It is a beautiful spot and boasts of two miles of clean firm sands where bathing may be indulged with delight in the sheltered waters. At the head of Cadboro Bay is the Cadboro Beach Hotel, owned and operated by Mr. and Mrs. Stuart Armour, who cater to families with children and where every courtesy and service is shown their guests. The hotel fronts right on the sands and as the beach slopes very gradually to deep water it provides an ideal play and bathing ground for children where they are perfectly safe. Mr. Armour has completed a fine bowling green and a tennis court on the premises and those who desire to play golf may do so at the Upland golf course near the hotel. The vegetable supplies are grown in gardens near the hotel and a dairy farm close in supplies fresh butter, milk and cream. The kitchen is under charge of a competent staff of white cooks and the guests may depend upon getting well-cooked, wholesome and substantial meals. Such was our experience while at this resort and we have no hesitation in recommending Cadboro Beach Hotel to anyone who has in view spending their holidays at the coast. The rates are very reasonable by the week and in Mr. and Mrs. Armour guests will find congenial and companionable hosts, which adds so greatly to the pleasure of travellers who are on their vacation.

INTERESTING NEWS ITEMS

It is only the dim-visioned pessimist who daily persists in merely observing his next footstep that misses the vista beyond.—Habit.

Let no one cloud his vision, poison his mind and dwarf his soul with false imagination that the world is not giving him a square deal.

The only way to avoid getting a square deal from the world is to not give to the world a square deal yourself.

To be duly elated when you win or unduly depressed when you lose, is a sign that you are carrying too much said and not enough ballast.—Xtra.

According to a report, Mr. Schwab, of the Bethlehem Steel Co., was offered one million dollars by the German government if he would default on the ammunition contracts that his company had with Lord Kitchener. This huge bribe did not tempt Mr. Schwab, for he no doubt knew the heartlessness of the then existing German government, and he was too good an American to play into their hands.

These are the days when man gets no thrill as his foot touches the self-starter to get motion, or his hand presses a button to get light, heat or food. He longs to get into the wilds to grapple with life and with matches, flour and fat, hike his way along streams and through forests by his own strength and resourcefulness, as the pioneers of this country made their way years ago.

Several prominent British financiers interested in oil development, are investigating not only the Northern oil fields but the producing area of Southern Alberta.

Last April the Bank of England lowered the rate of interest from 7 per cent. to 6½, which is an indication of a general tendency towards easy money. This condition has not affected Canada to an extent.

The United Farmers of Alberta, the premier agricultural society of the province, has of late years increased in its membership by leaps and bounds, now numbering with women and children more than 32,000.

Speaker Pingle of Alberta legislature, will have opposition in Redcliffe, a U.F.A. candidate being his opponent. The farmers of Alberta are contesting every available seat and they will be heard from on the day of election.

Premier Foster of N.B., says truly that the Canadian Trade Department is as dead as Julius Caesar and he criticizes the department for overlooking many excellent markets for our products in other countries, particularly Denmark.

After a terrible heat wave in Eastern Canada lasting for some time, during which there were many cases of prostration, a down pour of rain occurred which relieved the situation and helped the crop situation which was becoming very serious.

A fifty foot cruiser made the voyage from Miami to New York in forty-seven hours which is nearly forty-five miles an hour. The cruiser used one and a half gallons of gas to the mile. This is about as fast as the express train goes between these points.

Immigration to Canada for the month of April, 1921, totalled 15,052 in comparison with 13,287 in April, 1919, an increase of 13 per cent. Of the total newcomers 8,476 were from the British Isles, 5,035 from the United States and 1,541 from other countries.

Altitude of migrating geese, according to the Feild, a flock of geese were recently photographed at a height of five and one half miles. The picture, which was accidental, was made by the Great Trigonometrical Survey of India, when it was photographing the sun. At noon every clear day officials of the survey make a photograph of the sun, and at times the pictures show other things. In the photograph that shows the geese the formation of the back appears in unmistakable clearness, and the altitude was easily found. No doubt huge numbers of birds pass overhead at such a height that they can be neither seen nor heard.

Foot Specialist Coming to This Store

An expert on the human foot will be here on July 25th and 26th to tell our customers about foot comfort and how easily it can be attained.

Free Examination and Advice

This specialist knows all about feet and how to overcome their troubles and give perfect comfort. He was trained under the personal direction of Dr. Wm. M. Scholl, the recognized foot authority.

There is a **Dr. Scholl's** Appliances or Remedy for Every Foot Trouble

Come in and let him demonstrate to you that the proper fitting of the proper appliance will end all that foot suffering for you. No charge whatever. Everybody invited.

The prairie provinces of Manitoba Saskatchewan and Alberta have more than ninety per cent. of the Dominion wheat acreage this year, according to the government's recently published figures. Out of a total acreage of 18,654,110 of wheat, the three provinces account for 17,418,900, an increase of 577,000 acres over last year.

Major Lewis, M. P. P., Toronto, claims that \$7,000,000 could have been saved in handling Canada's wheat crop with the St. Lawrence deepened, and that handling costs would be reduced from 16 cents to 7 cents a bushel.

During the month of March this year, 1,801 settlers from the United States arrived in Canada via the ports in the Western district. Of these, 897 were farmers and farm laborers; 776 were women and children; 422 various occupations. Fifty-six went to Ontario; 208 to Manitoba; 709 to Saskatchewan; 786 to Alberta; and 42 to British Columbia. They brought with them money to the amount of \$641,895 and effects valued at \$308,891.

The Independents of Nanton will not contest the riding, but will leave the issue with D. H. Galbraith, the U.F.A. candidate and J. Glendinning the Liberal candidate.

Province of Alberta Co-operative Credit Societies

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, longer term loans, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit.

Increased Farm Credit depends upon—

- (1) Greater reliability of loans.
- (2) Certainty of repayment.
- (3) Adequate powers of security.

The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking necessary security, and thus repayment can be safely provided for.

Organization of a Society requires—

1. Fifteen signatures to petition to incorporate.

- II. Thirty members in good standing to start operations.

- III. Each member to subscribe for \$100 stock on which he pays twenty per cent. in cash and twenty per cent. each year thereafter.

- IV. Affairs controlled by Board of Directors.

- V. Limited liability. Guarantees of Municipal District and Government are given in accordance with terms of Act.

IF YOU ARE INTERESTED AND DESIRE FULLER INFORMATION

WHO GETS THE RAKE OFF

The Ottawa Journal draws attention to the fact that beef cattle have been selling in the Ontario markets below \$9 per hundred pounds since the end of May. A year ago, the Journal adds, the price was \$16.75. This represents a decline of a little over 46 per cent. Last year at this time prime cuts of beef were retailing in Ontario at from 42 to 45 cents per pound. They are selling at precisely that figure today, notwithstanding the drop of over 46 per cent. in the price of cattle. It would be interesting to know where the difference goes. Neither the original owner nor the ultimate consumer are benefitting by the drop in price.

ONE OUT OF FOUR FAIL

The Toronto Telegram has figures to show that 18 per cent of the daily newspapers of Ontario and 29 per cent of the weeklies have suspended since the war started. In other words one out of every four weekly papers has failed. The ones that are not providing themselves with additional revenue to meet the increased costs are passing out of existence.

INCOME TAX COLLECTORS

Canada adopted the income tax in 1917, and during that year collections totalled \$9,000,000. Australia, in her first year, 1915, collected \$18,000,000. In the second year of the tax Canada collected \$27,000,000, and in the third year \$46,000,000, while the collections of last year's tax are expected to be in excess of any of the previous years.

TESTING THE TEACHER

It is all right for Thomas A. Edison to find fault with college students because so many were unable to give correct replies to a more or less technical examination paper prepared by himself. Let us test his own knowledge now in his own particular line, viz., invention:

- 1—In what year did Dr. Cook discover the North Pole?
- 2—What Canadian newspaper discovered that oxalic acid mixed with ashes would take the place of fuel?
- 3—Who invented the circulation of the blood?
- 4—What scheme was devised ten years ago to raise prices for the producer, and reduce them for the consumer?
- 5—What newspaper once claimed a majority of one for the opposition when the government had a majority of 25?

CATERPILLARS IN YUKON

Bishop Stringer, who has arrived at Dawson City after a visit to the upper Pelly River, reports that a plague of caterpillars is sweeping the country, something extraordinary under the midnight sun. They have destroyed gardens, woods and willows. Gardeners are digging trenches around their patches and Indians are using the same around their tents. The caterpillars are rolling into the trenches in great numbers. The Indian dogs are feasting on them and all are fat in summer for the first time in anyone's memory. There was a similar plague there twenty-one years ago.

BANK DEPOSITS

The deposits in the banks at the end of May amounted to \$1,863,150.43, or slightly more than at the end of April. Current loans were lower by \$9,523,316, and the note circulation decreased \$10,219,549. During May the gold production of Ontario amounted to \$1,300,000, and it is expected that this rate of output will be fully maintained during the remainder of the year.

IN A LIGHTER VEIN

One day recently between Calgary and Lethbridge as the conductor approached a woman and her son for their tickets he was handed one full fare and one half fare ticket. Looking at the boy a minute he said:

"That boy should be charged full fare, he has long pants."

The woman studied real hard for a minute and then said: "Why, charge the boy full fare and me half."

An old colored woman sitting just behind them and listening, said: "For the Lord's sake, Mr. Conductor, I gets to ride free."

Some of the strike leaders in Winnipeg who have refused to work for a year, have decided to earn an honest living. The question is where did they get support during the year of idleness. Russia?

The boy who is abused in youth finds it mighty unpleasant, but the training may be found of considerable practical value after he grows up.

A Sunday school teacher asked a small girl the other day why Annanias was so severely punished. The little one thought a minute, then answered, "Please, teacher, they weren't so used to lying in those days."—London Post.

This is a raising generation: The farmer raises the crop, the wholesaler and retailer raise the price and the ultimate consumer raises the coin.

Two Scotchmen had wandered south of the Tweed for the first time. They had strolled into an English church. Service was in progress. One of them picked up a prayer-book and casually turned over the leaves. Suddenly his face assumed a look of deep concern. "Look, Sandy, 'Collect, Collect, 'Collect.' Mon, we maun get ott o' here ore we wilna hae a bawbee left."

Two Okotoks men were watching one of our airships, the younger one was amazed and finally remarked:

"I wonder what keeps that balloon up in the air that-a-way?" "Well," replied the older one, "it is caused by various causes. Sometimes it is caused by one cause, and then again sometimes it is caused by another cause."

PROVINCIAL NEWS ITEMS

T. C. Milne is the Independent Farmers' candidate in the Claresholm, running against Mrs. McKinney. The fight there promises to be a hot one.

The Ottawa Journal says that Canada may get some small share of the first German payment, but in the statement very strong emphasis is given to the "may."

Vulcan and district is still in need of rain very badly. The past week has been very hot and dry with hot, drying winds prevailing on several occasions. The crop conditions are very poor but the majority of the farmers are still optimistic and claim that if rain would only come they still have a chance of getting a very fair crop.

PROVINCIAL AND GENERAL

The price that the United States paid Denmark for the Virgin Islands was approximately \$295 an acre. The Philippines cost an acre about 27 cents, Florida 14 cents, and Alaska 2 cents.

Abnormal humidity prevailed at Montreal last week. The thermometer registered 90 degrees above zero. Scores of horses died on the street and a number of deaths were reported.

Here is good advice to motorists: "At a cross-road it is better to sound your horn and put your foot on the brake than to step on the accelerator and try to beat the other fellow across."

George Hoadley, former leader of the Opposition in the Alberta legislature, was nominated as the U.F.A. candidate in the Okotoks riding. Mr. Hoadley's name is mentioned as leader of the farmers' party.

British dairymen will purchase a herd of 2,000 dairy cattle from Canada if the embargo is lifted. Men who visited Calgary fair said they saw the finest herds of dairy cattle every shown right here in Calgary.

"The Microbe Review," as the Pasteur Institute periodical is vulgarly called, states that tobacco smoke is antiseptic and kills in a few minutes the primary bacteria of cholera, diptheria and cerebro spinal meningitis.

The population of France is now 36,684,000. Ten years ago it was 38,468,000, and the difference is discounted for by the war. France suffered terribly without doubt and they are entitled to full reparation on the part of Germany.

Hot, drying winds last week put the finishing touches to an otherwise good job, for all crops on spring and fall plowing are beyond saving. There is still a chance for a small yield on some summer-fallowed land but the outlook at this time of writing is very poor indeed. All we can hope for now on oat fields is that of second crop for green feed.

During the next two months the C. N.R. will spend six million dollars in preparing for the handling of Western Canada's bumper crop in the fall, according to a statement made today by A. E. Warren, of western lines. Section gangs all over the west will be increased and much employment will be provided by the railway in this connection.

Last year 10,279 tractors were sold in Western Canada, distributed as follows: Manitoba, 3,671; Saskatchewan, 4,229; Alberta, 2,379. The number of

LARGE JUNIOR MEMBERSHIP

Seven thousand members have enrolled in the ranks of the Junior Red Cross since the beginning of June. This was the announcement given out here which handles this branch of the Red Cross work for the Province. Before the campaign started in June the membership in the Junior Branch totaled 5,000. Surprising success has been attained in this branch of the work and the executive is confident that this total will be far exceeded when all the returns are in. Eighty schools in Alberta have now won the Lieut.-Governor Brett banner for one hundred per cent. enrolment in the Junior Red Cross, and there will be many more when the reports are all in.

The active work in organizing the new branches and setting the little people to work will not commence until after school opens in the fall. It was thought unwise to begin this during vacation time.

In Calgary the Junior Red Cross has gained 4,000 new members and they are very active. At the recent parade held by the Army and Navy Veterans, the Juniors carried off two prizes for their floats. One float carried a class of Juniors studying first aid and the other a boy making toys for crippled children. The Juniors are soon to have a paper of their own. The Canadian Red Cross Headquarters is planning the publication of a small magazine which will be devoted to their work. The organization has looked after two interesting cases of sick and cripple kiddies lately, one in Calgary and the other all the way from Peace River.

ARE NEAR TO OIL SANDS

At last reports the diamond drilling the Original Discovery well at Waterton Lakes was down about 1,000 feet, and according to the depth at which oil has been struck in other wells drilled years ago in this same field, there is every reason to believe that within a comparatively short time they will be in the oil sands.

This well is within a few feet of the old Lineham well, in which oil has been standing for the past 20 years or more, and which will still produce steadily under pumping. However, the well was filled up with all sorts of junk, and after considerable time had been spent in an effort to fish the stuff out, Wm. Livingston, managing director of the company, decided that it would be cheaper to drill a new well, so work was started with the diamond drill, which has been giving very good service, and within a short time good news may be looked for.

One candidate, up north, evidently a foreigner, spelled his name on election papers with z instead of s and his opponent tried to get the nomination on a technicality, but the Stewart government would not stand for it, and the election had to proceed.

Banff is unquestionably the playground of the Western world and for this we can largely thank the C.P.R. Whatever that company undertakes to do they do very capably.

Born—At the home of Mrs. A. McDonald, Vulcan, on July 18th, to Mr. and Mrs. Ed. Kehr, a daughter.

PROVINCIAL NEWS ITEMS

After payment of all bills, notes, etc., the Ford cash balance the first of the month was placed at \$6,113,017.03.

Sir Sam Hughes, who has been very low for some time, is not expected to recover. His death is hourly expected.

Fire losses in Canada during the month of June are estimated at \$2,300,400, and for the first week in July at \$673,750.

In this connection it is understood that the Ford schedule calls for a car every six and one-half seconds which is nearly 100 an hour or 4,800 in an 8-hour day.

The province of Alberta has a very large program of road development mapped out in Southern Alberta and construction and repair work are now in full swing which will ultimately link up this province with adjacent provinces.

Beef prices at Calgary dropped a dollar last week and mutton also was on the down grade. If heavy rains occur during July, as is predicted, fall feed and green feed may yet be abundant and in that case there should be a brisk demand for both stocker and feeder cattle.

The statement is made that only American labor is being employed on the irrigation project started in the south, and that although many Canadians are out of work they are not being employed. If such is true, Premier Stewart should assert his authority and order that only Canadians be employed.

Charles Taylor, Edmonton official of the Imperial Oil Co., committed suicide while enroute to Fort McMurray. The deceased suffered a nervous breakdown about two months ago and had not recovered when he went back to work. He was a well known figure in the province and his death is deeply regretted.

As already announced in these columns the Western Canada Colonization Association is conserving the money of its subscribers until it secures from the three prairie province governments reliable price lists of the unoccupied lands lying along existing railways. Without such firm price lists it would be impossible for this particular agency, or any other colonization agency, to carry through any really large land settlement scheme.

The twenty million acres of idle agricultural land which it is proposed to colonize, is held by upwards of eighty thousand individual owners, three-quarters of whom are non-resident speculators. A conference of the Provincial Premiers, to be called by Hon. T. C. Norris, will shortly consider a uniform land listing scheme for the three provinces. When a workable plan is forthcoming the whole prairie country may look forward to the greatest immigration of the century. It is greatly to be hoped that nothing may interfere with the success of a movement which means for the economic development of Manitoba, Saskatchewan and Alberta.

NEWS OF GENERAL INTEREST

Reports from Canada's six apple-growing provinces point to a crop in this staple fruit generally in excess of last year.

The Calgary polo team, captained by Frank McHugh, was defeated at Vancouver last week by a Vancouver polo team.

Psychological note: A Georgian conscientious objector was called a liar recently and broke his knuckles against his accuser's teeth.

J. M. Gibson, manager of the Hudson's Bay store at Calgary, has been promoted to the position of assistant stores commissioner in Winnipeg.

The Dominion Trust Co. Liquidation which has been dragging along in a painful manner is about completed, the official liquidator having been recently discharged.

And now we are all advised to stock up next winter's supply of coal. Trouble is to get the "wherewith" to enable us to do so at this particular juncture, and at present prices.

Mr. E. H. Malcolm, manager of the Hail Insurance Board, says that up till last week over 1,500 claims for hail damage has been received by his department.

July is proving to be a wet month in Gleichen district and prospects are good for a crop of about 30 bushels per acre for wheat, with other grain coming along fine.

A Washington society paper says: that President Harding is the most accomplished dancer that has occupied the White House for years. Mr. Taft was too ponderous and Mr. Wilson could never keep step to the music of the Senate orchestra.

Alberta's population is put at 620,000 by the provincial vital statistics branch. Births in the province in 1920 totalled 16,565 or at the rate of 27.72 per thousand of population. Edmonton and Calgary run practically neck and neck in the matter of births, the record be 2,339 and 2,369 respectively. Children born of British stock predominated in both cities.

A tribute to Marquis wheat, a cereal of Canadian origin, was paid by George H. Hutton, Superintendent of Agriculture for the Canadian Pacific Railway, when he stated that during the past year alone the province of Alberta had realized from \$20,000,000 to \$30,000,000 more from Marquis wheat than it would have realized had it been growing the old Red Fife variety.

British Columbia is expecting to ship five thousand carloads of apples containing 3,750,000 boxes in 1921. This quantity will be double the amount of shipments last year and constitute the largest export the province has ever effected. A partial realization of the development of the British Columbia apply industry may be reached when one takes into consideration that twenty years ago the province was importing fruit.

A new record in milk production for the entire globe has been set by Bella Pontiac, owned by T. A. Barron, of Brantford, Ont. According to the official test taken by the supervisor of the Holstein Friesian Association, this splendid animal produced for the twelve month period ending June 18th, a total of 27,017 pounds of milk; 1,259 pounds of fat; 1,573.75 pounds of butter. This is far in excess of any world's record previously set and entitles Bella Pontiac to the title of the world's record cow.

Thirty-seven years ago Calgary opened its first school house, a modest frame building of four rooms for its nine pupils. Last week the corner stone of the new Institute of Technology and Normal school buildings was laid, the ultimate cost of which will be \$900,000. There are now sixty-four schools in the city, with an attendance of 14,239 pupils, representing an investment of \$5,000,000.

"We have fifty million dollars to spend on our port and we wanted to get pointers on the best way to lay it out, so we came to Montreal," said the mayor of the city of Baltimore, who with four other officials of that city and port officials of New York and Philadelphia spent two days investigating the system of operation and facilities existing in the port of Montreal. "The foresight and courage of those originally responsible for the development of this great port was wonderful," he went on, "and as a result Canada possesses a port which, although nearly a thousand miles from the sea is yet amongst the first of the world ports."

The Calgary Y.M.C.A. fund reached the \$35,000 mark on Saturday last.

Fred Bilton had a couple of loads of cattle shipped from Vulcan last week to Calgary market.

H. C. Mainland of Blackie had a mixed load of cattle and hogs on the Calgary market last week.

Hog prices at Calgary stock yards have been running up and down the scale during the past week. Prices started at \$11.50 and closed on Friday at \$13.25.

We have never heard of a motorist being arrested for tooting the horn while touring over a winding road. It is a safe principle to follow, but at the same time it is not necessary to make a nuisance of oneself in that connection.

Balor and Son, of Glenview, shipped some stock from Okotoks last week.

The Okotoks Review reports that a considerable amount of moisture fell in the Okotoks district and that crops there are only slightly damaged by the drought.

Evidence of the favorable reception of Canadian cattle in Scotland is contained in a cable from Glasgow, Scotland, which announces that 629 Canadian cattle have been sold at 18 to 20½ cents per pound.

Despite the average reduction of \$25 in the price of the car it is asserted that June profits will exceed May by \$1 to \$1.25 per car on all but sedans. This has been made possible by still greater production and a reduction in price of materials.

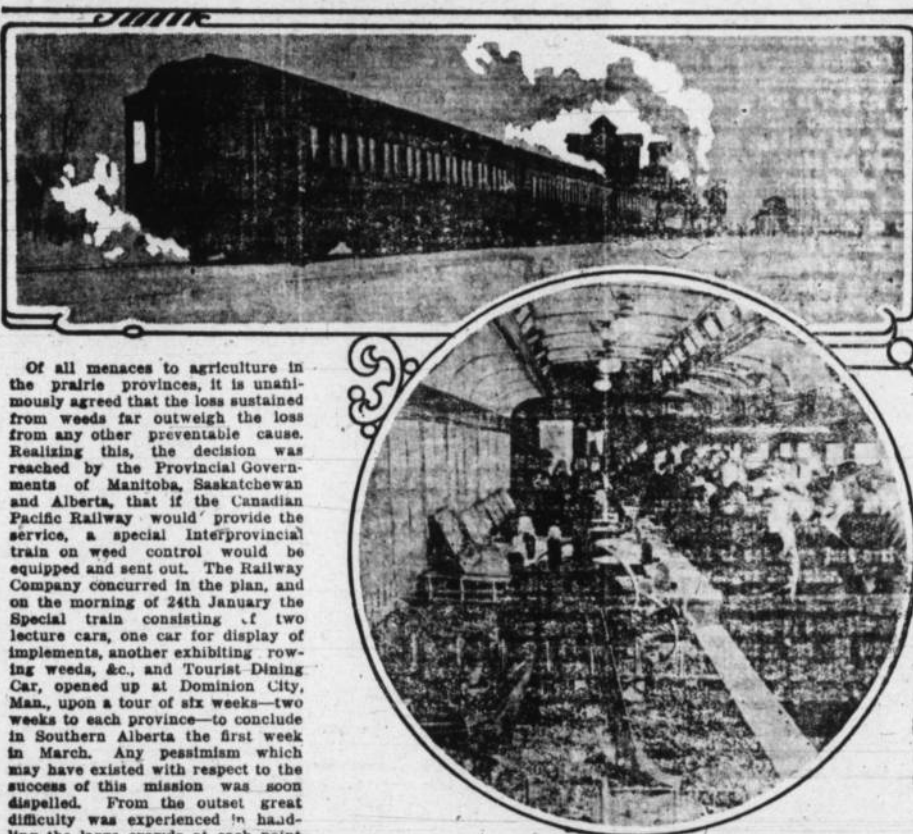

Georges Carpentier, the French pugilist, returned to France last week for a short vacation.

Two famous golfers, Joe Kirkwood, champion of Australia and Victor East, champion of New Zealand, will play 36 holes at the Calgary Golf and Country club on September 21.

Prof. J. A. Allen of the University of Alberta, is accompanying a geological party through the Red Deer valley, noting the various types and changes of formations of that valley.

In the seven fiscal years, 1915 to 1921, the total exports of grain from Canada amounted to 1,122,664,772 bushels, of which 818,696,828 were wheat. Of the total grain fifteen per cent. went to the United States and thirteen per cent. of the wheat was consigned to the same country.

"The Interprovincial Weed Special"

Of all menaces to agriculture in the prairie provinces, it is unanimously agreed that the loss sustained from weeds far outweighs the loss from any other preventable cause. Realizing this, the decision was reached by the Provincial Governments of Manitoba, Saskatchewan and Alberta, that if the Canadian Pacific Railway would provide the service, a special interprovincial train on weed control would be equipped and sent out. The Railway Company concurred in the plan, and on the morning of 24th January the Special train consisting of two lecture cars, one car for display of implements, another exhibiting rowing weeds, etc., and Tourist Dining Car, opened up at Dominion City, Man., upon a tour of six weeks—two weeks to each province—to conclude in Southern Alberta the first week in March. Any pessimism which may have existed with respect to the success of this mission was soon dispelled. From the outset great difficulty was experienced in handling the large crowds at each point visited, and on some occasions it was necessary to obtain the use of the local hall in order to accommodate all. This manifestation of interest on part of the farmers greatly encouraged the speakers with the train, who put forth their best efforts and received a splendid response with an assurance of earnest co-operation.

The Weed Exhibit car was a popular centre of interest to both young and old. Here were paintings and living and pressed plants to illustrate the worst weeds; and with these were companion cards indicating the means of eradication. Many kinds of weed seeds were shown under magnifying glasses, and models of weed seeds enlarged to forty diameters were shown. Soil plots with weeds growing from weed seed planted on the trip, indicated the rapidity with which some typical weeds developed when not promptly attended to. In these plots the type of implements suggested for the eradication of each type of weed appeared. In another section space was devoted to Natural History, featuring certain bugs, the grasshopper and the cutworm, each in various stages with charts showing the methods of destroying these pests.

- (1) The Inter-Provincial Weed Special standing on the siding at Dominion City.
- (2) School children visiting the Weed Special at Oak Lake.

The second exhibit car contained various types of machinery employed in connection with weed destruction and cleaning and cultivation purposes generally. The two Lecture cars, which were used for this purpose only, were adorned with placards bearing upon the weed question. The staff accompanying the train provided by the Dominion and Provincial Governments, Agricultural Colleges and Schools, included prominent authorities in agricultural matters as obtaining in Western Canada. Through each Province either the Minister of Agriculture or the Deputy Minister directed a programme which varied from day to day to suit the prevailing conditions of the district visited, for instance, a district badly infested with the Russian Thistle may have also suffered from the grasshopper plague of last year—these two matters would be treated by special authorities instructing thoroughly upon the measures to be taken to combat them. Another district had an abundance of couch grass, or mustard, or the cutworm had ravaged the crops.

The objective of the Provincial Governments and the Canadian Pacific Railway, was to arouse public sentiment to the seriousness of the weed situation, and it is believed that this has been accomplished and the venture thoroughly justified.

Less Troublesome
• Adjustments

As a rule the adjustment you get on a defective tire, doesn't quite satisfy you. Mainly, we suppose, because we are all human and want a little more than we are entitled to.

But even our most private opinions on the fairness of an adjustment, can find no fault with the method of settling claims on Ames Holden "Auto-Shoes."

You are always right with ourselves and the manufacturer. We personally look after your interests. There is no red-tape, delay or argument in fixing our measure of responsibility and your compensation. Ames Holden "Auto-Shoes" are guaranteed against any defect in material or workmanship without time or mileage limit. They are adjusted on that basis without quibble or evasion.

LOCAL ITEMS

Dr. Barker left on Tuesday for Edmonton where he will attend the Dental Convention to be held in that city. His office will be closed the remainder of this week.

On Monday, July 18th, Messrs. G. Johuk, W. Herman, E. Grice, A. M. McCarthy, J. S. McRoberts, H. Spanke, O. J. Northcott, C. Anderson, E. Ellison, M. Hoffman and J. Hoffman, with plows and 72 head of horses, arrived at H. O. Parry's farm to finish his summer fallow, (69 acres).

Mr. George Buck was a business visitor to Calgary for a day or two last week.

Mr. and Mrs. Geo. McQueen were in Calgary last week visiting their daughter, Verlie, who is in hospital at that point.

Dr. A. O. Brown, of Vancouver, a former resident of Vulcan, was a visitor in town last week for several days on business.

Misses Norma and Ida Bedingfield, of High River, are visiting in Vulcan with Mr. and Mrs. Geo. Buck during the absence of Dr. and Mrs. Bedingfield at the coast.

Don't forget to attend the U.F.A. picnic at Ensign on Wednesday, July 20th. Sports of all kinds and a big dance in the hall in the evening. Everybody come and have a good time.

Miss Margaret Pichard, who has been teaching at Berrywater school, left on Tuesday for Winnipeg, Man., where she will spend the summer holidays.

Elizabeth McCliment, who has been visiting her parents here for the past ten days, left on Wednesday for High River, where she will visit with friends for a few days before returning to Calgary.

Don't forget to attend the Credit Auction Sale of horses to be held on the farm of Gus. Jensen, section 36-15-26-4, 8 miles west and 6 miles south of Vulcan, on Wednesday, July

27th. Sale starts at 2 p.m., and C. C. Rebbe will be the auctioneer.

Geo. Staples and C. W. Wheeler, our local paint artists, are being kept busy these days giving a better appearance to some of our business buildings by a brand new coat of paint and the result of their handiwork is very pleasing to the eye.

Mr. Glen Wallace, of Kansas City, who has been visiting with his brother, Chester Wallace for the past three weeks, returned home last week.

Mr. and Mrs. G. B. McKay and family, who have been living in town for the past few months, left last week for their farm near Vulcan where they will reside in future.

Mr. C. E. Colwell left for Calgary by car on Saturday last to see his sister before she went to Rochester, N.Y.

The brand of baseball being put up by the Vulcan baseball team is sure winning them the support of the citizens. There is some good material in the bunch and they are sure putting up some good games. A large crowd turned out to see the match between the home team and Nanton on Friday evening and one of the best games of the season was played.

Credit Auction Sale. Owing to shortage of pasture the undersigned will offer at public auction on Wednesday, July 27th at N. W. Quarter of Section 36-15-26-4, being 8 miles west and 6 miles south of Vulcan, 20 head of horses, ranging in weight from 900 to 1400 lbs. Ages from 3 to 8 years old, all halter broke. Sold on approved notes due Nov. 1, 1922 with a discount of 10 per cent for cash. Gust Jensen, owner. See Rebbe & Shimp for particulars.

The Vulcan Fair which was to have been held on July 28th has been cancelled and a field day similar to that held on July 1st is being planned, the date of which will be announced later.

Mr. G. G. Ramey, who has been in business in Vulcan running a battery service, left on Thursday for the east where he intends to reside in the future.

Mr. W. Grainger, of Moose Jaw, Saskatchewan, arrived in Vulcan on Saturday and will spend the next two or three weeks here visiting with friends.

Mr. E. G. McPherson, who lives just outside of town near the school, is building a fine new residence on his farm. The dimensions of the building are 30x30 and it will contain seven rooms including a bathroom. Roy Wells has the job in hand.

Mr. Thomas Logan, who has been connected with The Advocate for the past eighteen months, will be in charge of the office until a new manager is appointed. In the meantime it is Mr. Logan's intention to keep the paper up to its usual standard and anyone wishing to communicate items of local interest are invited to do so by phone or letter when same will be taken care of.

Mrs. Arthur Mitchell and family, who have been visiting friends in Vulcan for a few days returned to Calgary on Thursday last.

Mr. E. G. McPherson was a business visitor to Calgary on Tuesday of last week on business, returning the same day.

It is requested that the property holders who have trees on the boulevards, keep same well watered during the present hot weather.

Miss Ethel and Ella Hodge, who have been spending their two week vacation visiting the Coast cities, returned to Vulcan on Monday morning. They report having had a splendid trip.

Mr. and Mrs. Galliker, who have been spending the last two weeks at the coast, returned to Vulcan on Sunday.

Mr. Ernie Russell of the Club Biliard hall, had the misfortune to have a couple of his fingers smashed while cranking a Ford car for one of his friends. Mr. Russell seems to hold no prejudice against the Ford for he has bought one since the accident.

Henry Graham left on Wednesday last Kelowna, B.C., where he will visit with relatives for a few weeks before going to the coast. Mr. Graham expects to be gone several weeks.

In the list of candidates for the U.F.A., we observe that Peter Enzenauer, a former resident of the Vulcan district, who went up north several years ago was a candidate in the riding of Alexandra and won by 900 majority.

Major Millar of Calgary, is authority for the statement that the cadet corps of Blood Indians, is the smartest and most advanced corps in the province. This following his annual tour of inspection.

It is said that 120,000 bushels of wheat was lost in the recent hail

storm in the Nobleford district. What with hoppers, drought and hail, farmers have to contend with many and numerous difficulties.

Four airplanes collided in mid-air over the city of Modesto, California, on July 14 and all crashed to the earth killing the four pilots.

The Alberta government has a buyer in the southern part of the province buying light horses to ship to Trinidad, Port of Spain.

RED CROSS AND VICINITY

Congratulations to Mr. and Mrs. Willard Snow on the arrival of a son, on the 11th July. He's a fine little chap. "Looks like his Dad," they say.

Mr. and Mrs. Rushfeldt and Miss Eleanor arrived home on Monday from Youngstown, where they visited the former's son and daughter. The report the crops in that part of the country much as it is here. In some places through which they motored the country is flooded, but too late to save the crop.

The Misses Loraine and Leah Woodman returned to Calgary on Monday. The girls successfully passed the book keeping part of their course and are now taking shorthand and typewriting. We wish them all success in their chosen vocation.

The Redlandview W. L. will meet on Friday, July 22nd, instead of the 20th as the U.F.W.A. are having their picnic on that day at Lake McGregor.

Mrs. P. S. Anderson will entertain the Institute at the home of Mrs. Stager.

The showers of the past week have done much good, but we still need a soaking rain.

Mr. and Mrs. M. Dunham made a trip to the foothills last week. They were fishing—though we did not hear of any fish. We did hear, however, that Mrs. Dunham fell in the river. Perhaps that was only a fish story. They enjoyed the trip anyway.

Mr. and Mrs. C. H. Kelly also visited the foothill country in search of pasture for their stock. They had a pleasant outing, but broke a wheel of their car on the return trip. Charlie don't mind little things like that, he is getting used to it.

Mr. Hayes gave a stirring address on politics last Sunday. He was careful to mention neither party nor men, but showed quite clearly that men must have qualifications when they appeal to the people for a place in the legislature. He also gave us some striking figures and facts from the conference which he attended in Calgary last week, pointing out that the children are coming into their own, and that people are beginning to realize that as the children are trained today so will the citizens be of tomorrow.

A strip of country twenty-five miles long and two miles wide, south of Saskatoon, was swept by a hail storm on Friday evening last, but the damage was not particularly heavy.

Binder twine wholesalers report that more twine has been sold this year than ever before in the history of the west. Unfortunately there will not be much required in this locality.

THE U.G.G. EXONERATED

"We are convinced that a proper accounting was made to us for all the grain in the elevators when turned over to your company," was the statement with which D. C. Coleman, vice-president of the C.P.R., acquitted the United Grain Growers, Ltd., from charges made recently by Robert Henderson, a former employee of the U.G.G., charging that among other things, 40,000 bushels of grain belonging to the C.P.R. were concealed from the railway company when the transfer was made.

This statement was issued by Mr. Coleman after an investigation made at the request of Hon. T. A. Crerar, regarding the elevators "B" and "E" at Fort William. Henderson made his charges before the royal grain commission. The invitation for an inquiry, issued by Hon. T. A. Crerar, offered every facility to assist the C.P.R. in its investigations and on July 14 the C.P.R. president exonerated the U.G.G. as above.

Mr. Crerar has also invited fullest investigations into the other charges made by Henderson regarding misconduct in connection with the elevators. On June 29 he wrote to L. H. Boyd, K.C., chairman of the board of grain commissioners asking for such an investigation and M. Boyd, on July 6, replied that this request would be acceded to as soon as possible.

R. E. HOUSE, Sec. Treas.

FOREIGN POPULATION IN U.S.

According to the recent census 13,703,987 persons who now live in the United States were born in other countries. That means about one in eight of their population, a proportion, as almost everyone will admit, as large as it can safely be. The effect of the war in checking immigration is shown by the fact that the foreign-born population has increased less than three per cent since 1910, though the country as a whole gained something like fifteen per cent. There were in 1920 1,683,298 natives of Germany in the United States, 1,398,999 natives of Russia, 1,133,967 natives of Great Britain, 1,139,578 natives of Poland, 1,607,458 natives of Italy, 1,035,680 natives of Ireland, 1,117,136 natives of Canada, and 1,177,109 born in Scandinavian countries.

J. W. Hugill, one of the foremost lawyers in the city of Calgary, and a very active man in a public way, was recently appointed King's Counsel. Mr. Hugill is very well known throughout the province.
